Declarations and prototype verification metadata

Owner declaration for review before portal signing

The registered owner must verify on the official portal that applicable tax and challan demands are clear; permit, criminal-case, accident, finance, superdari and encumbrance statements are accurate; the supplied information is true; and the authorised dealer may apply for the services allowed by the notified form.

Document and possession statement for review

The parties must verify on the official portal whether the vehicle, registration certificate, PUC and insurance certificate were handed over and received. The two prototype confirmations record physical custody only and do not constitute these portal declarations.
